## SPOUSE NOT LIABLE FOR POLL TAX OF THE WIFE.

Mississippi Attorney General Settles  
Suffrage Question.

JACKSON, Dec. 12.—Attorney General Frank Robinson has mailed out to the tax collectors and registrars of every county in the state an opinion settling all questions regarding the payment of poll tax by women who expect to vote.

The opinion says:  
First—All persons (whether male or female) between the ages of 21 and 60 (except certain specified afflicted persons) are liable for poll tax.

Second—The liability for poll tax does not depend upon whether such person has been assessed on personal roll with poll tax or not.

Third—All persons liable for poll tax should have themselves assessed if such is not already on the tax roll, and pay the tax before Feb. 1, 1922.

Fourth—In order to vote in elections in 1922 it is required that all males desiring to vote shall have so paid poll tax for 1920 and 1921 on or before Feb. 1, 1922 and that all women shall have paid poll tax for 1921 on or before February 1, 1922. It will also be necessary to register at least four months before the general election to be held.

Fifth—Husbands are not liable for poll tax of the wife.

Sixth—Women are not liable for poll tax for year 1920.

visors of Hancock County, has under consideration the building of a ferry wharf on the head of Carroll avenue and at a previous meeting of this Board a permit was granted to construct same on the head of Carroll avenue and as certain conditions have changed and the Board of Supervisors desires, considering constructing said ferry wharf on the head of State Street;

Therefore Be it Resolved; that the Board of Supervisors of Hancock County is hereby authorized to construct said ferry wharf on the head of State Street if they so desire.

There being no further business appearing before this Board the Board adjourned its meeting in course.

S. J. LADNER, Secretary.

## CHRISTMAS GREETINGS!

(From the Pupils of the  
Central School.)

"May all for which your heart desires,  
And all to which your hope aspires  
Within your hearth and home abide  
From this till next sweet Christmas tide!"

Christmas spirit is shown in the Primary Department of the Central School. The room is decorated in Christmas colors. The sand table represents "Christmas in the Barnyard." The little folks have written their letters to Santa Claus and sent them by his carrier, The Stove.

A word building contest was held by the Second Grade pupils. Each child had to draw, cut and color a Christmas stocking. Afterwards each child had to find as many words as the word "Christmas" contained and write them on their stocking. Honors fell to Annie Louise McMillian. The following are the words obtained:

## SANTA.

(By Laura Nelson.)

On Christmas eve, at one, all is quiet  
Not even a mouse is creeping about,  
The clock is ticking in the same old way,  
Awaiting the coming of Christmas Day.

On Christmas morn at eight all is gay,  
For the happiest of all is Christmas Day,  
Dear Old Santa, you're a dandy,  
With toys,  
And dolls that tickles girls and boys.

We like your laughter and smile,  
They alone would make life worth while,  
But we like the things in your pack,  
That you bring to us on your back.

Whistles, rings and dolls are all nice  
Yet my tummy calls for candy and cake with spice,  
You are a great dear old Santa,  
I love you for all you bring,  
Especially for your candy.

Last week the 7th and 8th Grade Honor Roll for the Third Month was as follows:  
Seventh Grade—Mabel Unsworth, Marie Adam, Mathilda Ladner, Marius Zeigler.

Eighth Grade—Mabel Ladner, Rosalie Orth, Katherine Erwin, Dolores Landry, Harry Orth.

The third grade pupils are delighted to have a new classmate, Willis Powell, who started school one day last week.

The 5th and 6th Grade pupils had a "Funny Picture Contest" last week. Ruth Perkins and Johnny Sinclair drew the most original.

Bay High Meets First Defeat of the Season  
On Saturday, December 3rd, the Bay High Cagers went out to Caesar where they met with the first defeat of the season in the hand of the much larger and more experienced team of the Picayune High School by a score of 19 to 4. Although, outclassed, the Bay boys kept their fighting spirit and an interesting game was played.

Bay High has several games now scheduled. DeLisle, Biloxi High, Gulfport High, and Sellers, the last year county champions. A return game will be played with Picayune in which we hope to blot out our recent defeat.

The average daily attendance the first three months of this session has been two hundred and seventy-eight (278) as opposed to an average of two hundred and seventeen (217) for the past session. The pupils of Miss Hymel's room at the Webb School and the pupils of the High School have had the highest percentage of the attendance based on the total enrollment for the three months, both having an average of 95 per cent.

Both teams of the boys and girls basketball played Logtown Tuesday afternoon on the "Log" court. We lost the girl's game but went sky high with the boys—winning with a

## SCHOOL LOCALS OF LOGTOWN.

The girls basket ball team of Bay St. Louis met the Logtown girls in a fast and interesting game Tuesday afternoon. Bay St. Louis losing to Logtown by a score of 25 to 8.

A community team of boys basket ball made a crushing defeat at the hands of Bay St. Louis on the same day that the girls played Logtown. The score resulted 34 to 6 in favor of Bay St. Louis.

Several additions have been made to the course of study in the Logtown High School Manual Training Classes for boys are proving of much interest and the art classes seem to be equally as full of interest.

The children are looking forward with much interest to the coming of Santa Claus in our school next Wednesday evening.

Last Monday night the pupils of the Central High School under the direction of Miss Cora Lea Pearson, made their first appearance in a public program. The audience was small but appreciative, and it was the opinion of those present that the entertainment was far above the usual run. The entertainment consisted of two snappy playlets, with a number of specialties. In "Six Cups of Chocolate" we were greeted by six jolly girls, all in love with the same so-called "Lord of Creation" who had written them all the same letter. However, they did not let the practical joker get ahead of them. The following girls took part in the play: Willie Ansley, Iva Baker, Lucy Ladner, Emma Summersgill, Anita Jordy, Luvinia Saucier.

"Married to a Suffragette" was a sketch of modern life. Bobbs married a suffragette and he is left at home to tend the baby. His favorite cousin comes to visit them, and his wife returns just in time to witness a display of affection which she misunderstands. While Bobbs is out she removes the baby to a neighbor. All kinds of babies are brought for identification. Mrs. Bobbs was restored to wifehood and the climax pleasing.

## BIG CARGO OF BOOZE SEIZED FROM "ALERT" ORLEANS NEW BASIN.

From N. O. States, Monday.

Liquor estimated to be worth in excess of \$100,000, believed to have been smuggled from Nassau, in the Bahama Islands, and which was being unloaded from the 60-foot auxiliary schooner, "Alert" in the New Basin Canal, less than 100 yards of the Illinois Central Railroad bridge, was seized by police last Sunday night. This is not the first shipment of booze landed in the New Basin.

Prohibition agents took charge of the schooner at daylight Monday and began unloading the cargo. Prohibition Officer Rouch and Agent Sonnenberg estimated it at more than 300 cases. Rare wines and champagnes, liquors and cordials which are supposed to be ghosts of the past, so far as dry New Orleans is concerned were being stacked in a huge pile on the banks of the canal.

The discovery of the huge cargo of liquor aboard the Alert is another concrete indication of the huge rum-running operations disclosed a week ago.

Seeks the Higher Ups.  
Hugh Larre, prohibition director for Louisiana, announced that Geo. Morin, 2759 Banks street, driver of the truck that is believed to have received four loads of liquor from the Alert before the ship was captured and to have delivered it to consignees in the city, will be brought to the prohibition office sometime Monday and questioned in an effort to learn the name of persons believed to be in the syndicate of booze-runners supplying booze to New Orleans and which, prohibition officers are convinced, was to have received the Alert's cargo.

As soon as the unloading of the Alert is completed and the liquor is transferred to the custom house, the prohibition department will concentrate its efforts to lines of investigating which, it is hoped, will lead to the arrest and conviction of the men "higher up" in the New Orleans liquor ring, Mr. Larre said.

The Alert, which is propelled both by sail and engine had a cargo of lumber on her decks. It was consigned to the American Turpentine and Tar Company, which is located about a city block from the point where the Alert tied up in the canal to unload her liquor cargo.

The ship was in charge of Captain

Alexander Faye, 48, of Fenton, Miss. The boat is said to ply between Pearl River, Jordan River and Mississippi points and New Orleans.

Captain Faye, and members of the crew, are held for federal authorities in the Twelfth Precinct station. Those to be charged with violation of the prohibition and smuggling laws besides Captain Faye, are:

CHRISTY NETTO, 36, of KILN, MISS.  
SALVADORE CUEVAS, 25, of KILN, MISS.  
SAUL CUEVAS, 42, of KILN, MISS.  
HOWARD CUEVAS, 23, of FENTON, MISS.

PERCY MAGUIRE, 30, a Negro, 3515 North Miro Street, NEW ORLEANS, LA.

It was thought Maguire that the police learned of the alleged booze running operations of the Alert.

Sees Booze Unloading.  
Maguire, who probably will be used as a material witness in the case, told police officers he had been to see his mother, who lives on Delachaise street, near Miro, Sunday night and discovered that the Alert was unloading booze.

In order to reach home, he said, "it was necessary for him to cross the New Basin. He intended to do this at Hagan avenue, he said, but found the bridge closed for repairs."

While walking along the canal bank toward town, intending to cross the canal at the Illinois Central bridge he saw the crew of the Alert busy unloading the booze cargo. He went to a nearby saloon and had the proprietor phone Capt. Peterson of the Tenth Precinct station, who got in touch with the 12th Precinct immediately.

Motor Patrolman Conrad, Corporal Hoffman of the Tenth, hurried to the scene of the booze unloading with squads of policemen.

As they approached the Alert they noticed a limousine and an automobile truck approaching along the canal. Both machines retreated on seeing the officers, the limousine car escaping amid shots from the police.

The truck, said to be owned and operated by George Morin, 2759 Banks street, was captured. Morin is being held. The other machine disappeared in the darkness before its number could be caught.

Four Loads Taken Off.  
According to Agent Sonnenberg four truck loads of the Alert's cargo had been unloaded and carted off before the arrival of the police.

The spot at which the Alert was being unloaded was by no means an unhabited and deserted spot. A number of factories are located in that section of the city and there is some traffic.

The entire hold of the ship from bow to deckhouse, police and federal

officers found, was filled with Haig and Haig, rare champagnes, Old Lewis Rye, bottled in 1914, and other choice varieties.

Much of the whiskey, which was Canadian club and Scotch was in the original cases and bore the stamp of Nassau. Some of the other bottles were contained in burlap bags.

An effort will be made to learn from Morin the name of the party the liquor was consigned to and who received the four truck loads, said to have been unloaded before arrival of the police.

Already stirred by the uncovering of huge liquor smuggling operations through the arrest of Xavier Frey, a week ago, New Orleans was furnished with an even greater sensation in boozery by the capture of the Alert.

Captain Faye Interviewed.  
Captain Faye was interviewed by a States reporter at the police station shortly after his arrest. His story of the manner in which the Alert came in possession of the booze cargo will not be accepted by the federal agents it was believed.

According to Captain Faye, the Alert was crossing Lake Borgne Friday night with her cargo of lumber—and nothing else—when she sighted an oyster lugger in distress between East Pearl Light and Long Point. The lugger, according to Captain Faye, sent up several signal rockets and the Alert changed her course to give aid.

The lugger was filling with water, which already had arisen two feet in her hold, according to Captain Faye. Being only 40 feet long, the cargo was too much for her to carry in the captain's opinion.

Three men aboard the oyster carrier begged for help, Captain Faye said, and asked that he take the cargo to any port for which he happened to be bound.

Transfer of the cargo of booze was begun at midnight Friday and lasted several hours with the crews of both ships working hard, according to Captain Faye.

"I agreed to bring the cargo to New Orleans said the Captain. 'As we pulled away from the lugger the crew seemed to be successful in its efforts to stop the leak and it went off into the darkness.'"

Captain Faye said he did not learn the name of the vessel from which he obtained the booze. He also told the police he intended notifying them of the booze aboard the Alert at the first opportunity.

Captain Faye talked in his cell at the Twelfth Precinct station denied that he knew what the cargo consisted of. He said that he got the

#### A WORD TO KNOCKERS.

Are you one of those always passing judgment on those around you? You do not let it be mental judgment, either for too often you express in no uncertain terms just what you think. Of course, after you've been heard in a like manner and the average citizen of Bay St. Louis has learned that your opinions are of no value, you have to stand a lot of odium. But people who knock others must expect to hear some harsh things about themselves. So with you it goes right in one ear and out the other.

But why are you so positive for or against a certain thing before you have all the facts? It is so much easier to suspend judgment and line up in the right way in matters concerning the public good rather than to fly off on a tangent and have to be put in your place by those really who have the facts and can show you up in your true light.

Don't be a pest about anything unless you are sure of your ground and even then it doesn't pay to be a pest. Work in an honest, legitimate way and try not to air your opinions when they are objectionable to others if you want to be rated as a good citizen, the kind who leave real sorrow in the community when they have passed on to another world. It's easier to cultivate the debating spirit rather than to get down to work and attend to your own business, but it is harder on you. Just remember the town is going right along when you are gone, and that the world isn't going to become overbalanced and turn upside down when you step off of it. Remember that, Mr. Knocker. It may help you to stop shortly where you are sometime and line-up with the better class of the community—the class that hasn't any regard for a knocker.

#### EVIL INFLUENCES.

It is certainly amazing how much space in the big city papers a sporty and handsome woman who treads under foot the conventions of respectable society can command once her sinning results in a divorce suit or a murder. Not only all the details of court proceedings, but her life from girlhood, are displayed in type and pictures, along with anything she may say or write, in a most conspicuous position.

At the same time the wise words of a college professor, the story of a noble charity, the details of a great medical discovery, go to remote the columns in solid type. Educational and religious news, the thoughts of honorable religious leaders yield to the sensational and the debasing in the news column.

It is depressing to glance over many pages of big city papers that reach Bay St. Louis and see whole columns given to write-up of men who make prize-fighting or crime of some sort or another their business. We cannot believe, either, that it is good for the public at a time when useful men must be at work, when saving is essential to the country, and when men, women and children need constant inspiration in the vital things of American life—patriotism, morality, honesty, and reverence for all that is good and clean.

#### THE EVE OF PROSPERITY.

At a time when Bay St. Louis citizens are inclined to be a wee bit pessimistic over the business outlook, it is well to listen to the words of such men as Charles H. Schwab, the great steel magnate. Whether or not we agree with all of Mr. Schwab's methods, they are few who will deny that he is a leader of accomplishment. Listen to what he says:

"America is on the threshold of almost unbelievable prosperity. We have had a business spree, and we are now in the cold gray dawn of the morning after. We have to pay the bill, and we must as well pay with a good heart."

"We are on the eve of greater development. However, wild may be your business dreams of the future, I will say they will not be as wild as the realization which many of you younger men will see. If I had my life to live over today is the time I would start."

"We have just had a board meeting of my companies in New York and we decided at once to undertake the expansion of works that we are running at only 20 per cent of their capacity. If we are right in believing that the future holds prosperity for us, what better time for us to spend our money for the expansion that will be necessary in the future? We can do it cheaper now than at any other time, and when prosperity comes we will be ready to reap the benefit of it."

Still a lot of fellows don't understand that two autos can't occupy the same space when going in opposite directions.

During the hunting season it is a

#### TEACHING HISTORY.

We were looking over a history of this country a few evenings ago, one of the kind taught in the schools around Bay St. Louis. And we were struck with the fact that almost everything in it touched on war.

It started with the discovery of America, and quickly led into the Revolutionary war; then into the Civil war; the Mexican war; the Spanish-American war—and the new ones will have a few chapters added to detail the World war. And we wondered if it wouldn't be a good idea for someone to write a new history that the boys and girls of the future might learn something about the things we are proud of that do not depend on war for their interest. Discoveries and great celebrations, and events of world-wide interest that are not connected in any way with bloodshed, such as the operation of the first railway, the flying of the first airplane, and the like, are numerous enough to make a good-sized book. Why wouldn't they make a more readable history than one that with details almost entirely with destruction?

#### SOMETHING USEFUL.

Despite the fact that Christmas is hundreds of years old, the tendency to give foolish things as gifts still prevails to a large extent. In recent years there has been a leaning toward gifts of articles of wearing apparel, and we are glad to see it. For anyone appreciates something that is serviceable more than something that delights the eye for a few hours and then is forgotten. But in the matter of gifts and especially for those who once resided in this country but who now live elsewhere yet constantly thinking of the "old home" nothing can approach a year's subscription to the home town paper. Each week for 52 weeks, it comes as a Christmas gift—new and different every time. And each time the wrapper is torn off the one receiving it thinks of the one so thoughtful as to send it—and this more than pays for the gift. Think over the things you could send as Christmas gifts to those who live elsewhere but who are acquainted here. And if you can think of a single thing that will give as much real, downright enjoyment, and that will last for a whole year, as a year's subscription to the home town paper, come in and tell us what it is.

#### INCOME FIGURES.

Most of the people in Bay St. Louis are average Americans. That being the case, the income for each during 1913, according to figures just given out by Uncle Sam, was \$354 for each member of the family. This rose to an average of \$629 in 1919. But it was only \$358 in actual buying power on the basis of 1913 prices. Many thought they were getting rich during the war. Big salaries were common, but in a majority of cases they were spent as fast as the money was received. Our riches during the war period were, to a great extent, very largely on paper. Those so fortunate to "salt away" a part of their income then are profiting now that prices are seeking the normal level. And, thinking it over, and reflecting on past experience, wouldn't it be a pretty wise resolve to decide now to save more in 1922 than you did in the year fast drawing to a close.

#### WHEN YOU BUY.

In making purchases for household and personal use many Bay St. Louis people act with careful deliberation. Yet it is a busy world and a great many things are done without much thought or planning. It will frequently happen that the idea will suddenly occur to a person that they need certain merchandise, and the impulse to go and get it at once is acted upon.

How is the decision as to where to trade reached in such cases? Some would say that the purchaser would go to the nearest store, but that is not the usual governing influence in these times. The desire to make the best bargain has become very powerful in recent months, and even when they are hurried people like to hunt up the best place to buy what they want.

From some little source back in the mind some kind of a suggestion occurs that such and such a place would be the best for that purchase. But what creates the suggestion? In a majority of instances it is created by the store that has made a constant effort to impress itself on the mind of the people. Such is the case in all aspects of thought, for people remember the things they hear over and over again, and they forget the things they rarely hear about. The advertised store impresses itself on the public mind by constantly repeating an idea. When you ask your mental faculties to tell you where would be the best place to make a purchase they respond with the idea that has been most constantly impressed upon them. The stores that constantly keep themselves in the public mind by steady advertising are the stores that are not only the first ones thought of when it is necessary to make a purchase, but they are the ones that are most likely to be the best place to buy.

#### POINSETT AND POINSETTIA.

The New Orleans Times-Picayune of a few days since contains the following editorial, with information concerning Joel Poinsett, not generally known. The article reproduced for the informative knowledge it contains:

"Today our Poinsettias are bursting into glory in greater profusion than for many years. The prolonged summer, with just the proper amount of rainfall and the absence of violent winds to whip the tender foliage, has brought us the blossoms without loss of the yellow green foliage. There is scarcely a garden along upper St. Charles avenue and others of our especially floral streets that does not gleam with splashes of botanical flame. With a marvelous monument to a man whose flowers are! And yet how few now recall the truly remarkable man, statesman, scientist, orator, adventurer, botanist, writer, whom North America must thank for the introduction of the flower that wears a modification of his name. We refer, of course, to Joel Roberts Poinsett of South Carolina."

Just for poetic justice of the thing may we not assume that the flowers themselves by their unusual profusion, wish to celebrate a double anniversary. Seventy years ago, on December 12, Poinsett died full of age and honors, but thirty years before that time Joel Poinsett—aged 42, was a representative in Congress from his state and during the winter of 1821-1822, because of his familiarity with foreign peoples gained by years of world rambling, was sent on a special mission to Mexico. Then as today, and we may say, as during the most of the interim, we were in uncertain terms with our Southern neighbor. The Poinsett mission was successful; at the conclusion of his congressional term the young statesman was made minister to Mexico, and there negotiated a commercial treaty of unusual wisdom and breadth of view.

But we hasten too rapidly. It was during the winter of 1821-22 just mentioned that Poinsett, a botanist of talent and enthusiasm, made the acquaintance in the Mexican wilds of the then "Flor de Parque" a member of the euphorbia family of unrivaled size and beauty. We might explain right here, for fear of arousing the criticism of our botanical friends, that the flower as popularly looked upon is not a flower at all. Only the tiny yellow center is a flower and the scarlet points are merely enlarged bracts. Poinsett was quick to recognize the possibilities of the flower if transplanted to our Southern states and as a hot house plant the world over. He introduced it here and in his honor it was called Poinsettia, a pretty name that was at once adopted and now remains in general use.

The full title is Poinsettia pulcherrima (most beautiful Poinsettia). So much for the flower, but Joel Poinsett was by no means done scaling the ladder of fame. The South Carolinian was sent on diplomatic missions to South America where he became the hero of dramatic episodes and displayed military ability and personal courage of a remarkable character. He was minister of war under President Van Buren, won fame in literature and in several branches of science. He loved Mexico and opposed the Mexican war.

#### HE'LL PULL THROUGH.

Like a gleam of sunlight shining through the gloom which overhangs the American farmer because of the low prices of farm products comes the declaration of the editor of the Dakota Farmer to the effect that the farmer need have no more worries than the average business man of the cities and towns that the farmer will "come through"—he always has and he always will.

The farmer's situation is really no worse than that of any other class. It only looms large by reason of the fact that farm prosperity is the basis of all prosperity, and because the farmer, having confined his buying to absolute necessities, has helped to lessen the market for all other products. It is not right, of course, that the farmer should receive very small hour pay for his efforts, but small hour pay is better than no pay at all and the farmer has not yet and never will take the position that some workers do—that he would rather join the "soup line" or starve than work for small pay. For that reason there will always be a "farm market."

A return to normal farm conditions depends largely upon a reduction of freight rates. And we believe if farmers around Bay St. Louis and over Hancock County would write their congressmen and demand that he fight for such reduced rates they would very soon get what they stand in need of.

Lots of people haven't any further use for weather than to use it as a topic for conversation.

There are said to be over fifteen million telephone numbers in this country, and just look what a hard time you have getting even one of them.

## RAILROAD SERVICE VITAL TO THE WORLD'S PROGRESS

The importance of American railroads to the health, wealth and happiness of every reader of this newspaper was clearly demonstrated during the period of government control, when the exigencies of war made necessary the curtailment of certain privileges and advantages to the traveling and shipping public which have not as yet been altogether restored.

Realization of this condition has happily changed the attitude of the public towards the railroads of America, and the increasing tendency towards fair-minded consideration of the railroads' problems has wrought mutual benefits with the promise of still greater co-operation in the future.

The Louisville and Nashville Railroad, as one of the strongest links in the American chain, does its full part in general service, and as the great highway of traffic and travel through the Ohio and Mississippi Valleys it renders a sectional service of the greatest importance.

Notably is this true of the N. O. & M. Division; traversing the wonderful Gulf Coast sections between Mobile, Pensacola and New Orleans.

## Christmas Message.

POSTMASTER GENERAL WILL H. HAYS ADDRESSES THE FOLLOWING TO POSTMASTER JOE. E. SAUCIER.

From the Office of the Postmaster General at Washington, Will H. Hays an important Christmas message has been promulgated. Postmaster Saucier received a copy of the Christmas Message, and it herewith published in full in The Echo, as follows:

OFFICE OF THE POSTMASTER GENERAL,  
Washington, D. C., November 22, 1921.

To the BOYS AND GIRLS OF THE UNITED STATES:

Christmas is almost here.

Your great Post Office Department has a big job ahead and needs your help.

Think what it means to be Santa Claus to our 100,000,000 people and to deliver Christmas parcels to every family in this great country within the short space of a few days and without disappointment.

It can be done, and we're going to do it if we may have your help. I want to enlist the active assistance of every boy and girl in the schools of our country in getting parcels mailed THIS WEEK to relieve the rush that comes directly before Christmas.

Will you go home to-day and take this message to your parents and friends:

"Our postmaster has asked us to mail our Christmas parcels this week, for, unless we do, Uncle Sam's load will be so heavy that the last few days before Christmas that he won't be able to deliver all the presents by Christmas eve."

The parcels must be well wrapped and tied and addressed plainly in order that they may arrive in good condition with their Christmas appearance unspoiled. You can put on your packages, "DO NOT OPEN UNTIL CHRISTMAS."

And, there must be a number on your house and mail receptacle, too, for, if there isn't, Santa Claus's messenger, your letter carrier, may not be able to find the house where the present belongs.

There are some other things, too, in which you can all assist in improving the mail service and in saving our great government millions of dollars a year that is now wasted because of carelessness—yours and mine.

Every day that you drop a letter in the 40,000,000 other letters are already pushing and jamming through the postal machinery. One letter a day for each family of five persons in the United States is given to Uncle Sam to deliver.

When you send a parcel to the post office for mailing any day there are about 8,000,000 other parcels ahead of yours passing through the postal hopper. This is in ordinary days; at Christmas time it is multiplied many times.

One family in about every ten puts a badly addressed letter in the mail every day. This mixes up over 2,000,000 half addressed letters with the 20,000,000 fully addressed letters. That means that the fully addressed letters must wait on the slow moving poorly addressed letters just like the larger boys and girls are delayed by a bunch of "bad kids" lagging along.

You boys and girls can help the Postal Service and save your father some money, because he has to pay the cost of searching addresses on letters and parcels sent out by this one careless and thoughtless family in every ten.

First, find out if your family is the careless one, then bear in mind that your letters must be handled by skilled mail distributors standing in post offices and swaying postal cars of a mile-a-minute mail trains, often under poor light.

The address on every letter, card or package must be correct, complete, and legible, including the house number and name of street, and the "From" address should be in the upper left-hand corner so that the mail will be returned to you in case it is not delivered. Do not abbreviate names of States, because so many look alike when abbreviated.

Put the proper amount of postage on your letters and wrap the parcels carefully. Avoid fancy writing, which causes post office clerks and carriers to stop and study, and thus, lose time. Make the address plain and easily read, and always pen and ink or typewriter and light-colored envelopes, so as to save the eyes of the post-office clerks. Do not use envelopes of unusual size. The little ones that are so frequently used for cards and notes at Christmas and other holiday times cause an untold amount of trouble and labor, as they will not fit our cancelling machines and must therefore be cancelled by hand. Because of their size and tendency to slip out of a package, these envelopes are more likely to be overlooked or lost.

Mail your letters and packages early in the day, because this avoids overloading and delaying mail at the end of the day.

Your local postmaster and teachers will tell you more about the Postal Service.

Do these things, and you will win the grateful appreciation of the people in your post office and especially of:

Your Postmaster General,

WILL H. HAYS.

P. S.—Don't forget to mail Christmas packages THIS WEEK.

We, of old Hancock, elect a man to the Legis. up in Jackson; this bird, all the time he is trying to cop your vote—promises by the hottest frying pan that when he goes up Jackson way, his sole purpose, his main endeavor, his life's ambition, will be to promote the welfare of old Hancock ONLY. He's elected, he corals about 60 per cent more dignity puts on a wide-brim Stet, hops the Chu-Chu for the gilded dome, with 40-11 resolutions already resolved in his inside pocket (there's special waste baskets for them up Jack-way) soon he arrives he finds that he's what the Prof. calls a "necessary adjunct" a mere connecting link in the chain. The other guys pat him on the paddin' of his coat, congratulate him and—maybe treat to a soda—and, well, goodbye, old Hancock, the gent gets a lot of "them" in his throat and forgets to talk for the mullet range—you see, lil sister; to be in the Push you got to vote with the gang, well the Gang does the rest. Well, Doctor, what's the cure for all this ailment? Why, my dear sir, simply clean out the ALLimentary canal of it's foolish and trusted political obstructions and impediments, give the good old Magnolia State a new diet of sense, with positive directions on the bottle to "Keep Your Nose Out of Your Neighbors Affairs," advertise the State as a place to LIVE in, a place where you can laugh out LOUD and enjoy the few years that's yours without some geezer complainin' of your method.

Did any guy remark that the Pelican state was losin its population? Unh! Unh, there ain't none so foolish. Them birds are goeters on tother side the Pearl, they wont use BLUE paint on anything unless it is a holiday after another.

Well, take off the straight-jacket, realize that it's the young folks who are going to keep us from the minus column—and if you don't make it a place they'll want to stay in, well, they'll go to Muscle Shoals, that's all. They wont settle on Cut-over-land with Cut-under laws hanging loose.

All we want about here, they say, is a couple of good hotels. Well, why in the hotel don't we?

We'd like to advise the dear, gentle public that after the comin election, the also-ran column will look like prosperous undertaking estab. O, you cold slab!

If you haven't got it started you'll be late for Christmas.

FULLER BULL.

Our idea of a loyal citizen is the one who can say when he gives a Christmas present: "And I bought it right here in Bay St. Louis."

An auto is a necessity to some people simply because their neighbors have one.

Some men haven't any use for books unless there is a stub in one end of them.

Save your pennies, says a Frisco editor, and the dollars will take care of the lawyer who breaks your will.

Edison gets the credit, but a lot of married men believe the first talking machine was manufactured in the Garden of Eden.

Life to the turkey possible appears pretty much like just one darned BLUE paint on anything unless it is a holiday after another.

### NOTICE TO MEMBERS OF BAY-WAVELAND YACHT CLUB.

There will be a special meeting Monday night, December 20th, at the Courthouse, of the Bay-Waveland Yacht and Athletic Club to officially organize under the approved charter and to discuss matters pertaining to the club's new home. You are respectfully urged to be present.

### CITY ECHOES.

—Mr. and Mrs. Walter L. Gleason of this city have the sympathy of their friends and the community generally in the death of the former's brother, J. Mortimer Gleason, who died at the home of his mother in New Orleans yesterday, aged 40 years. He is survived by his widow and children who before her marriage was Miss Marie Mehrrens, a frequent summer resident to Bay St. Louis.

—Mr. Funston Mauffray left Sunday night for New Orleans, where he has taken a position with Schwartz Bros., wholesale dry goods merchants. A graduate of St. Stanislaus College and a young man of much native ability, he is well-equipped to go forth into the world.

—Dr. and Mrs. Jas. A. Evans left this morning for New Orleans, from which city they will leave for Dresden, Tenn., where they will spend the Christmas holidays with Mrs. Evans' parents, Mr. and Mrs. Boyd, pleasantly remembered here as former visitors. Dr. and Mrs. Evans were accompanied by their charming baby.

—The Christmas holidays at St. Stanislaus College begin December 22nd and end January 5th. Students will leave Bay St. Louis on Thursday of the coming week, December 22nd at 6:10 A. M., arriving at New Orleans at 7:45, accompanied by members of the faculty. The Collegians will carry home this greeting: "That you and yours may have a full share of God's choicest blessings during the Holy Season of Christmas and the New Year, is the sincere wish of the Brothers of the St. Stanislaus College."

—Messrs. Claud Monti and E. J. Gex have returned from Myrtle Grove, La., where they were guests of their good friend, Mr. R. S. Blaize, of Bay St. Louis. They had gone on a hunting trip and were quite successful. They report having had an unusually splendid time in addition to the success of their ceiving them most cordially and their hospitality was unbounded. Game is plentiful in that section of the country. The party killed over 40 ducks and one 200-lb. buck, their guide, George Truefour, shooting the latter. Mr. Gex is the proud owner of the horns, which he expects to have mounted and placed in his office as a souvenir of the trip.

### NOTICE.

My dental office will be closed until January 5th.

JAS. A. EVANS, D. D. S.

### NOTICE.

Dr. J. H. Spence, Dentist, announces that he will be in his office in the Gex Building, each day until January 5th.

### CARD OF THANKS.

Deeply appreciative of the services and sympathy of our friends and acquaintances who came to us in our time of sorrow this week, we wish to thank one and all profoundly and gratefully for their love and tenderness which was so manifest on the occasion of the death of our little daughter.

It is indeed a great consolation to live in a community where the people are so prompt to respond in time of distress, and while we are grateful for all attentions, words are inadequate to express our true sense of appreciation.

We want to thank one and all individually and collectively as well.

Gratefully,  
WM. C. SICK AND WIFE.

### PROGRAM A. & G. THEATRE.

Monday, Dec. 19—Mary Miles Minter and Jack Mulhall in "The Little Clown." Cameron, Coffey, the world's greatest boy diver is also in the cast. Also Mutt & Jeff.

WILL BREAK A COLD, FEVER AND CRIPPLE QUICKER THAN ANY OTHER REMEDY.

### DEATH OF VENERABLE WAVE-LAND RESIDENT.

Mrs. Catherine Zimmermann, Widow of Andrew Zimmermann, Passed Away Yesterday Morning—Funeral in Bay St. Louis this A. M.

Waveland lost one of its best known and oldest residents yesterday morning, shortly after midnight, December 16th, 1921, in the passing away of Mrs. Catherine Zimmermann, widow of Andrew Zimmermann. Mr. Zimmermann died only a few weeks since and grief at his demise hastened the death of Mrs. Zimmermann who had been ailing for some time.

The funeral took place this Saturday morning at 9 o'clock, the cortege winding its way from Waveland to this city, where, at Cedar Rest Cemetery, the remains were laid away in the family burial plot.

Mrs. Zimmermann was a native of New Orleans, and had been a resident of Waveland for the past 47 years. She is survived by grown children. Her death is deeply deplored in Waveland where she had lived so long and so close to the hearts of her neighbors and all who knew her.

The sympathy of Waveland and Bay St. Louis is extended to the bereaved ones.

### DEATH OF LOUISE ELDENIE SICK.

Beautiful Child of Mr. and Mrs. Wm. C. Sick, Aged Two Years, Taken Away Over Night.

Death is sad under any circumstances, but when the idol of a happy home is snatched away by death over night there seems little or nothing to say that can assuage the grief of the distracted parents.

Louise Eldenie Sick, second child of Mr. and Mrs. William C. Sick, born August 24th, 1919, was taken suddenly ill with a pain in the back of her ear Monday evening late and died the following morning. The child had been the very picture of health. Big for age and a beautiful child her taking away seemed all the more improbable. She was also a granddaughter of Mr. and Mrs. Conrad Sick.

The funeral took place Tuesday afternoon, and was largely attended by the many friends of parents and grandparents and notable were many beautiful floral offerings. Interment was at Cedar Rest Cemetery.

The sympathy of all who know Mr. and Mrs. Sick is with them in their grief. We can only find consolation in the words of the Master who said "Suffer little children to come unto me, for thine is the Kingdom of Heaven."

—At the annual election of officers for the Bay Benevolent Association, held a few evenings since, W. H. Starr was elected president, an honor and compliment worthily bestowed and a recognition of ability as well; Miguel Parilla, treasurer, and D. J. Zeigler, secretary. The Bay Benevolent has now been in existence for quite a number of years and is in a flourishing condition. It is one of the most popular of local organizations, and The Echo is glad to learn of its continued prosperity and success.

—The home of Mr. and Mrs. Terrel Perkins had a close call from fire a few mornings since, when only timely intervention save the beautiful new building from total destruction. While the inmates were asleep during the early morning hours their attention was called to fire in a corner of the attic by the smell of smoke. Immediate, but heroic attention saved the dwelling, but not without considerable damage. How the fire originated is not known.

—Rev. W. G. Forsythe, pastor of the Main Street Methodist Church, for the past year, has been assigned to Enterprise, Miss., where he will take charge of the church. He is to be succeeded by Rev. Fatherstone, of Waynesboro, Miss., who, with his family, is due here next week. Rev. and Mrs. Forsythe and their accomplished daughters will leave Bay St. Louis for their new home on Monday next, followed by the best wishes of the community.

—As will be seen by advertisement, appearing in this issue of The Sea Coast Echo, the Louisville and Nashville R. R. Co., announces round-trip holiday fares at one and one-half rate for round trip. These tickets will be placed on sale December 21st to 25th, inclusive, and will be good to and including January 4, 1922. For further particulars in detail apply to John A. Green, resident agent.

—Mr. and Mrs. E. J. Dyer have closed their home corner Main and Touline streets, and moved to New Orleans, where they will reside in future, and offering their local home for sale. Mr. Dyer is a conductor on the Southern Pacific road, running between New Orleans and Lafayette, La., and found living away too inconvenient.

—There was a very successful benefit performance at the A. & G. Theatre yesterday afternoon and night for the benefit of the Parent-Teachers' Club of Central School, Mrs. C. A. Breath, president. The full returns have not as yet been received, but the proceeds are being used for the benefit of the club.

### ST. STANISLAUS NOTES FOR THE WEEK ENDING.

Cagers Doing Good Work—Baylor College of Waco, Texas, Plays Here December 19th.

On Friday night, December 10th, the S. S. C. Varsity quintette opened their season with a victory of the Lyman High School. The won by a large score—30-12.

The first half was played very slow by both teams, the half ending in favor of the visitors. But when the whistle sounded for time in the second half the Collegians came back with a determination to win which they did. Outplaying the visitors at all times, Gaubert at guard for S. S. C. displayed a good brand of floor work.

The Varsity Five on their second venture lost a very interesting and well-played game to the pennant winners of New Orleans. The game throughout was very fast. Some fifty pass work was shown by S. S. C. but the collegians found their pass work was useless after having such hard luck in their shooting. The score was 19 to 18.

On Monday night, December 19th, 1921, S. S. C. Varsity clashes with Baylor University, of Waco, Texas.

The 120lb team on last Sunday defeated the "All Star" team of New Orleans in a well-played and hard fought game by a score of 22-8. The feature of the game was the playing of Wolfe and Ferrara. They also turned in another victory on Friday night by turning back the fast Lyman High Quintette. On the same night the 130lb team lived up to its good name by being the best team of its size that has ever appeared on the local court. They won over the much larger Kila Hi team by the score of 34-14.

THOMAS EDISON TALKS OF THE MUSCLE SHOALS PROJECT.

Says Ford Will "Make Things Hum" Should He Get Hold of Property.

ORANGE, N. J., Dec. 12—Thomas A. Edison, who recently accompanied Henry Ford on an inspection tour to the government's water power developments at Muscle Shoals, Ala., declared the automobile manufacturer could "make the Muscle Shoals project hum, not only getting his rental but a good profit for the people."

"Fertilizer, which he would manufacture, is in great demand in the South," said the inventor. In northern Alabama I saw cotton fields with short stubby plants stunted for the lack of fertilizer. What the people need is cheap fertilizer. The price is too high now. The crop would be doubled and employment given to about a million people if the Ford project at Muscle Shoals went through."

One part of the plant is ready for operation excepting for the completion of the dam which Ford wants the Government to build before he leases the property. The government says the dam would cost \$45,000,000, Ford estimates the cost at \$30,000,000 and I think Ford's figures is about right.

"Ford will guarantee to take a profit of only 8 per cent in operating the plant. Who else would want to do it for that? If the profit exceeded 8 per cent the price of fertilizer would be reduced."

Mr. Edison emphasized that his connection with the plant was advisory. "Ford has a bright mechanical mind," he said, "but is weak in chemistry and that's where I come in."

### VESSEL ALERT CAPTURED WITH BIG CARGO OF BOOZE.

Continued from Page 1.

When he found it closed and was following a limousine down a road when he was stopped but the "limousine" was let get away.

The police charged Morin with operating an automobile without an headlights at night, however. Captain Peterson of the Tenth Precinct says that Percy Maguire, the negro that reported the booze boat, about six years ago cut a negro 12 times. Maguire escaped but was caught afterwards for attacking a girl, and served two years.

Maguire said that he worked at Ruddock for the Illinois Central Ry. Captain Faye denied that he was a member of the crew of the vessel.

Charges may be dropped against Howard Cuevas. It is said that he boarded the Alert just to make the trip to New Orleans and was not a member of the crew.

A shotgun, loaded and in good condition was found in the captain's quarters of the boat. High-powered rifles ready for business were found in the mate's and engineer's quarters.

It is believed by federal agents that these were the armament of the boat and that they would have been used on sufficient provocation.

No fight was offered by the captain or the crew when the police boarded the ship Sunday night. The crew was taken to the Twelfth Precinct station and Officers Evans, Taylor and Hutt of the Twelfth Precinct guarded the boat until daylight when the federal officials assumed charge.

Four husky negroes were employed by the prohibition department to unload the booze cargo which was transferred to the custom house.

The Alert is believed to be one of the ships that have been regularly supplying New Orleans with imported liquors. An effort will be made to connect it with the huge booze ring operating in New Orleans with a boldness and bravado that has never been recorded in local annals of crime.

Favorite Docking Place. The capture of the Alert is verification of the belief that the New Basin is the docking place for a fleet of yachts and other vessels plying between here and the Gulf, in an endless chain which brings many of thousands of dollars worth of whiskey into New Orleans.

A week ago Xavier Frey believed to be one of a syndicate of operators, was caught unloading 1117 sacks of booze at the Industrial Canal. The size of the cargo and that captured on the Alert Sunday night indicate the huge amount that is slipping by the authorities.

The ships bring it in, trucks distribute it to storing places, wholesale and retailers visit the saloons of the city, the big office buildings and thus is the drinking public supplied by agencies which are known to be in league with each other.

Federal officers believe that, can Morin be made to talk, information
